

## Haketilo - Feature #113

### Make Haketilo's settings page display proper message when IndexedDB is unavailable

<b>Target version:</b>	
<b>Description</b> The most common case for this is probably browsing in Private mode under (some?) Mozilla-based browsers. When then the "dom.indexedDB.privateBrowsing.enabled" is set to false (the default for LibreWolf and Abrowser), Haketilo's settings page breaks.  Thanks to Luciano for finding the bug
