Haketilo - Bug #89

Restore, to the extent necessary, the script sanitizing functionality

09/04/2021 08:50 PM - koszko

Description

Sanitizing of <script> tags was recently dropped because it seemed sufficient to rely on CSP rules being injected. The overlooked fact that under Chromium CSP is not applied to DOM elements added by content scripts causes re-added <html> node to have all its original <script>s executed
